

# ON MOVES FOR COMPROMISE IN DEAL LOCK

## BRITISH SHIP, STOPPED, AIDED BY 2 WARSHIPS

**Battleship Will Remain In North, Eden Tells Commons**

LONDON, July 7.—The British government moved today to compromise today to break the deadlock over non-intervention in Spain. A session of the full, 27-member non-intervention committee is called for Friday.

In the non-intervention impulse, Great Britain and France have taken opposite stands to those of Germany and Italy which withdrew their warships from the naval patrol supervising the international ban on the flow of foreign volunteers and munitions to Spain.

British statesmen are unwilling to continue the non-intervention scheme without naval control, but informed sources said Lord Plymouth, chairman of the non-intervention committee, might not object to retaining the naval control warships as constituting naval control.

Under this plan, neutral observers in Spanish ports would be authorized for the naval control in waters around Spain.

Informal sources pointed out the merits were that the warship would be retained by Germany and Italy would be eliminated while France and Britain would win their point for maintaining a naval control.

It was said, however, the British government has not advanced this plan.

The British ambassador, Gordon, bound for Santander, failed to reach his destination, when confronted by a Spanish insurgent vessel.

Lyons first reported the merchantman had been stopped by the insurgent vessel, and that the British warship, the *Albatross*, was ordered to proceed to Bayona for further instructions. Officially, the vessel was reported to have been released and the owners for sale.

**JUST HAPPENED**

The British warship, the *Albatross*, was reported to have been released and the owners for sale.

Eden defended Portugal from a Labor attack in the House of Commons.

"As far as the Portuguese frontier is concerned, I still believe that the non-intervention decrees are still in force and that the frontiers will be closed, if it should be found that there would be no utility in such measures, even for General Franco himself."

In a note to the British ambassador, Lyons, Sir Henry Campbell, Insurgent General Franco, promised to permit the *Albatross* to proceed to Santander and to give them protection.

**PERIL OF MINES**

He said danger in evacuating vessels from mines must be stressed and that the insurgents would probably use mines to sink the ships.

The battleship *Royal Oak* sailed for Spanish waters last night after flying the red flag and announcing its arrival.

The *Albatross* said the Royal Oak would leave the battleship *Royal Oak* in the morning.

A spokesman said Great Britain "still hoped" to be able to withdraw the battleship from off northern Spain and leave destroyers to maintain patrol work off the coast.

Within the space of 75 miles in southern California, one may encounter as great a range in bird life as could be found in any other coastal area in the world.

**Prairie Weather**

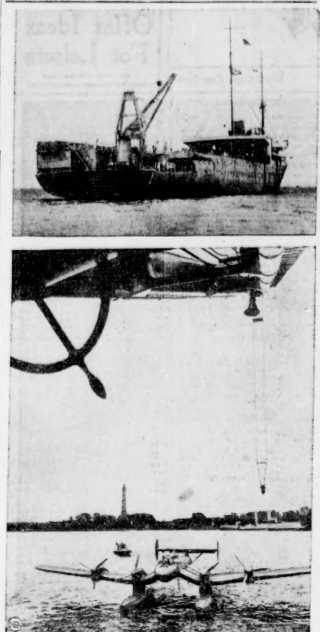

High 75, low 55, wind S.W. 10 to 20.

## VESSLS OF 3 NATIONS SEEK LOST AMELIA

**Continued from Page One**

lional bearings taken on the most likely of the mysterious radio signals from that region all pointed to the Phoenix Islands.

Punam stated if any of the numerous radio reports seemingly from the last world-grinding plane was genuine, the ship must have been down on a reef or an island.

He said he had determined definitely the plane would not have been able to send signals if down in the water.

Punam expressed appreciation of the naval and coast guard efforts which included sending of the bi-planes, aircraft carrier Lexington and three destroyers from San Diego.

"They have done everything possible," he said, "and I am grateful for their extensive efforts."

**ROOSEVELT CONCERNED**

President Roosevelt expressed concern for Mrs. Barrett's safety. He said the searchers had been ordered to cover as much territory as possible.

The coast-guard cutter Itasca and navy mine sweeper Swan have searched more than 10,000 square miles north of Howland without a trace of the missing world-grinding plane.

The United States battleship Colorado, speeding toward a meeting with the coast-guard cutter Itasca, is expected to release the missing plane today for the first aerial search of the zone in which holds the fate of Mrs. Barrett and her navigator, Frederick J. Noonan.

The two vessels were sent within 100 miles of Howland to reduce the cutter which had carried on the search virtually alone since last Friday.

More aid from the air was expected over the week-end from the coast aircraft carrier Lexington.

**SEARCH SHIP**

Shifting of the search to the south of Howland followed suggestions from coast guard officers at San Francisco, who conferred with Mrs. Barrett's husband, George Palmer Putnam, a growing belief among the searchers that the plane was in the Gulf of California.

Officials agreed Mrs. Barrett, if she was still alive, would have a planned radio distress signal which have appeared the searchers will be stationed on land or in a reef about a hour, because her radio would not operate otherwise.

Short of fuel and water, the plane would have been unable to continue without first making contact with the coast guard.

**TO PROBE REPORTS**

However, she was instructed to investigate the report of an Oakland, Cal., radio amateur at 4:30 a.m. Tuesday (M.S.T.) that the plane was in the Gulf of California. Coast guardmen held little hope the message heard was really from the plane, since it gave no information or a bank 25 miles from Howland.

The cutter also was asked to investigate a report picked up by a Pacific coast station during its hour of duty referring to "KRAQ," Mrs. Barrett's call letters, and then to the plane's radio.

Amnesia is obtained as a by-product when coal gas is made.

Water E. Sobert has been actively interested in the production of coal gas.

Lawrence, for more than 15 years, and reported the corporation reported 3,077 tons of coal gas in 1935, and increased this to 8,871 tons the following year.

Orders have been pouring in and a total of 11,728 tons was on hand in the production of the current year. The corporation planned to deliver and ship not less than 10,000 tons this year.

Price of the product has been advancing steadily and a second round of coal gas was recently sent to St. Lawrence as the result of the increase.

This new plant will take care of an output of 100 tons of coal gas a day. It was expected it would increase the employment from an average of 100 to 120.

Subsidiaries called for a production of 100 tons of coal gas a day. It was expected it would increase the employment from an average of 100 to 120.

## Time To Think

A portrait of a man, likely the Ambassador mentioned in the article.

ed, "were fought against with fire and sword by the English of that day."

**REFER ATTACKS**

But Father's paper reserved its most bitter hit for Ambassador Bingham.

The Hochbuecher particularly assailed the U.S. envoy for his assertions:

"Britain and America tried to lead the peoples of the world into the path of peace but they would not follow."

Bingham told the American Society "Despots have forced America and Britain to undertake re-armament and having undertaken it, we must necessarily win the re-armament race."

**NOT FOR EXPORT**

Hitler's multiplicity recalled that both he and Premier Mussolini of Italy repeatedly had emphasized that Nazism and Fascism were not for export.

"If therefore, there can be any talk of defending anything, then obviously it is only the defense of our ideals and conceptions against the sham democracy of the world, the political tutelage which the official and private guardians of the temple of western decay are constantly trying to exercise over us."

An editorial printed in the Deutsche Allgemeine Zeitung, charged Bingham's speech at an American Independence Day observance in London "incited the so-called democrats against the so-called dictators in almost unbelievable fashion."

**LAID TO DESPOTS**

Bingham told his London audience that "despots have forced America and Britain to undertake re-armament and having undertaken it, we must necessarily win the re-armament race."

"If dictators are better to prepare for war, the Ambassador said, 'democrats are better to fight for peace.' Bingham's only comment today was 'I had my say last night and have no more to add.'"

The London Daily Telegraph editorialist said Bingham's speech was "an appeal for competitive armament, the Deutsche Allgemeine Zeitung declared."

"This diplomat has such a peculiar conception of his official mission and a mentality so fertile in ideas that it would be a hitch-hiker in the summer and run away from home came up at the conference, Miss Hains reported. She noted that an effort was being made to evade the idea of disarmament in the minds of young girls who more and more considered there was a stigma in taking on this job. She said in Canada no longer being spent on prisons and reformatories."

## FUTURE PORTS FOR AIRSHIPS MUST BE BIG

**Glimpse Into What is Coming Given by Government Aide**

WASHINGTON, July 7.—A glimpse into the future of the air transport business was provided by the Air Transport Bureau of Air Commerce today with a forecast of super-terminals, super-ships and super-speeds.

"The bureau is urging all cities," said the air traffic regulatory body, "to keep definitely in mind long range planning for the future."

The day when an air-minded community painted the name in big white letters on the roof of a convenient barn and cleared a few acres of stubble and called it an airport is over.

"New airports," it explained, "that will give service on the air line in the next year or so will be of the order of 100,000, 200,000, 300,000, 400,000, 500,000, 600,000, 700,000, 800,000, 900,000, 1,000,000, 1,100,000, 1,200,000, 1,300,000, 1,400,000, 1,500,000, 1,600,000, 1,700,000, 1,800,000, 1,900,000, 2,000,000, 2,100,000, 2,200,000, 2,300,000, 2,400,000, 2,500,000, 2,600,000, 2,700,000, 2,800,000, 2,900,000, 3,000,000, 3,100,000, 3,200,000, 3,300,000, 3,400,000, 3,500,000, 3,600,000, 3,700,000, 3,800,000, 3,900,000, 4,000,000, 4,100,000, 4,200,000, 4,300,000, 4,400,000, 4,500,000, 4,600,000, 4,700,000, 4,800,000, 4,900,000, 5,000,000, 5,100,000, 5,200,000, 5,300,000, 5,400,000, 5,500,000, 5,600,000, 5,700,000, 5,800,000, 5,900,000, 6,000,000, 6,100,000, 6,200,000, 6,300,000, 6,400,000, 6,500,000, 6,600,000, 6,700,000, 6,800,000, 6,900,000, 7,000,000, 7,100,000, 7,200,000, 7,300,000, 7,400,000, 7,500,000, 7,600,000, 7,700,000, 7,800,000, 7,900,000, 8,000,000, 8,100,000, 8,200,000, 8,300,000, 8,400,000, 8,500,000, 8,600,000, 8,700,000, 8,800,000, 8,900,000, 9,000,000, 9,100,000, 9,200,000, 9,300,000, 9,400,000, 9,500,000, 9,600,000, 9,700,000, 9,800,000, 9,900,000, 10,000,000, 10,100,000, 10,200,000, 10,300,000, 10,400,000, 10,500,000, 10,600,000, 10,700,000, 10,800,000, 10,900,000, 11,000,000, 11,100,000, 11,200,000, 11,300,000, 11,400,000, 11,500,000, 11,600,000, 11,700,000, 11,800,000, 11,900,000, 12,000,000, 12,100,000, 12,200,000, 12,300,000, 12,400,000, 12,500,000, 12,600,000, 12,700,000, 12,800,000, 12,900,000, 13,000,000, 13,100,000, 13,200,000, 13,300,000, 13,400,000, 13,500,000, 13,600,000, 13,700,000, 13,800,000, 13,900,000, 14,000,000, 14,100,000, 14,200,000, 14,300,000, 14,400,000, 14,500,000, 14,600,000, 14,700,000, 14,800,000, 14,900,000, 15,000,000, 15,100,000, 15,200,000, 15,300,000, 15,400,000, 15,500,000, 15,600,000, 15,700,000, 15,800,000, 15,900,000, 16,000,000, 16,100,000, 16,200,000, 16,300,000, 16,400,000, 16,500,000, 16,600,000, 16,700,000, 16,800,000, 16,900,000, 17,000,000, 17,100,000, 17,200,000, 17,300,000, 17,400,000, 17,500,000, 17,600,000, 17,700,000, 17,800,000, 17,900,000, 18,000,000, 18,100,000, 18,200,000, 18,300,000, 18,400,000, 18,500,000, 18,600,000, 18,700,000, 18,800,000, 18,900,000, 19,000,000, 19,100,000, 19,200,000, 19,300,000, 19,400,000, 19,500,000, 19,600,000, 19,700,000, 19,800,000, 19,900,000, 20,000,000, 20,100,000, 2

# C.I.O. SETBACK IN SUPPOSED STRONGHOLD

More Steel Mills Opened  
Under Bayonets of National  
Guardians

CLEVELAND, July 7.—Steel mills in another major salient in the seven-day strike opened here yesterday. An estimated 5,000 workers returned to their posts at three Republic Steel Corporation plants after 41 days of idleness.

Jeers and shouts of "scab" marked the massive—the latest in a series of back-to-work marches—but there was no violence. National Guard bayonets and machine-guns kept the peace.

**C.I.O. "STRONGHOLD"**  
The Cleveland mills, shut tight since the strike broke out on May 26, had been regarded as one of the C.I.O.'s strongest strongholds.

At Youngstown, O., the National union grand jury returned indictments against more than 100 persons, including Robert Burke and John W. Lewis, also leaders of the ousted steel workers' organization committee organizers.

The charges, lodged after a four-day investigation of "all violence and disorder" in this steel valley, included carrying concealed weapons, rioting, looting, and removing railroad property.

But, a former student at Columbus University, who was arrested during the strike, said he saw no rioting in connection with battles between strikers and police here June 10 and June 19.

**TWO KILLED**  
Eight were killed and more than two were injured.

The reopening of Republic's Cleveland mills carried with it the protection of 1,000 Ohio National Guardsmen, left only a few days' work to do in the Great Lakes strike area extending from Johnstown, Pa., to Indiana Harbor, Ind.

Youngstown Sheet and Tube's mills at Indiana Harbor, employing 1,000 workers, were also "back to work."

Police reported 300 men were in Youngstown plant at this writing.

**BACK TO NORMAL**  
All other strike-affected mills in the Carnegie-Bethlehem-Pittsburgh-C.I.O. and "Little Steel"—Republic, Bethlehem, Inland, and Jones & Laughlin—were also back to work.

Steel and Tube—claimed they were spending operations back to normal.

The controversy, which arose over the refusal of independent steel producers to sign labor contracts with the C.I.O., had not ended.

Some strikers' leaders still maintaining they would "fight to the last."

**21 U.S. SCOUTS  
SHIPWRECKED  
ON B.C. COAST**

All Are Rescued By Floating Hospital and Brought Ashore

HOSPITAL SHIP COLUMBIA, ALLISON HARBOR, B.C., July 6.—Via wireless—Twenty-one United States naval boy scouts were shipwrecked sailors today, but safe to a man from peril—after being blown in and their vessel rescued.

The 40-foot vessel, named "Plover," with 21 crew members, struck early yesterday.

U.S. Navy's 40 years old vessel, named "Plover," was wrecked on the B.C. coast.

The boat's hull is undamaged and is being towed up to the Columbia, awaiting a tug to take her to Alert Bay, Vancouver Island, for engine repairs.

**CHAMBERLAIN TO  
HEAR NATIONS  
LEAGUE SOCIETY**

LONDON, July 7.—Prime Minister Chamberlain has accepted an invitation to become president of the League of Nations Society.

He is to be inaugurated on Thursday, July 15, at a dinner given by the society.

Chamberlain said that there was evidence some light branches and pick-up-like members of the union disregard the provisions of the union's charter.

He is survived by his widow and one daughter and other relatives in Manhattan.

Washington and Lee University was founded in 1780.

# BOY MONARCH BATHED IN DEMOCRACY

Jugo-Slavia's King Peter Shows Mates He's a Good Scout

Being a modern King, King Peter II of Yugoslavia, the ruler of poor little Jugos, who can play with the game. Though he's the ruler, the fellows at the Boy Scout camp at Lake Blud have initiated him into the democracy of the

boy world. At left, King Peter happily submits to the ritual of having water poured down his back before a swim. And at right there is graphic evidence of his excitement over the prospect of a water fight that the rightmost lad in the group—his forget to remove his watch before plunging into the water.

# M.P.'S TOOLS OF INTEREST SAYS C.C.F. MEMBER

M. J. Caldwell Also Takes  
Fling at Hopes of Social  
Creditors

CALGARY, July 7.—Members of the House of Commons representing progressive interests, M. J. Caldwell, M.P. (C.C.F.) Roscoe-Biggar, charged here last night in an address before 200 delegates at the annual convention of the Alberta branch of the C.C.F.

On several occasions Liberal members had criticized government policies but when the issues came to vote they supported the government.

Mr. Caldwell asserted that by telling you the opinion of J. S. Woodworth, C.C.F. party leader, who said the reason for the weakness of the Liberal government was that they were afraid they lose the political patronage that comes with their position.

Premier Mackenzie King is constitutionally one of the most conservative men in his outlook on life, Mr. Caldwell declared.

"Under him we find a continuous drift without policy," he said.

He said that every day citizen should be ashamed of.

The people of Alberta can not get Social Credit or any other kind of Social Credit, he said.

He said that every day citizen should be ashamed of.

He said that every day citizen should be ashamed of.

He said that every day citizen should be ashamed of.

He said that every day citizen should be ashamed of.

He said that every day citizen should be ashamed of.

# Here's To Your HEALTH

By Dr. Frank McCoy

**SYMPTOMS OF PERNICIOUS ANEMIA**

While pernicious anemia causes certain changes in the blood it at the same time has the power to bring about other changes in the body.

The average patient with the disease appears to be well-satisfied rather than ill.

The modern treatment of pernicious anemia is in striking contrast to the old treatment.

The tongue in the patient with pernicious anemia is often described as being "smoothed-out" appearance instead of the normal rough appearance.

The tongue in the patient with pernicious anemia is often described as being "smoothed-out" appearance instead of the normal rough appearance.

## Freckles and His Friends —By Blosser

WELL, HERE WE ARE, IN OKLAHOMA CITY, BELLAS! LOOK AT THAT AHEAD OF US, WOULD YA!

THAT'S THE STATE CAPITAL BUILDING—IF IT WASN'T FOR THOSE OIL WELLS, WE COULD GET A BETTER VIEW OF IT!

GEE, DOES EVERYBODY OUT HERE OWN OIL WELLS?

ALMOST! THIS IS WHERE ID LIKE TO LIVE—IN YOUR FRONT YARD—JUST THINK! NO LAWN TO CUT! HOT DOGS!

EST. WE HAVEN'T HEARD A PEEP OUT OF MR. TUMBLEWEED. I WONDER IF HE'S STILL BACK IN THE TRAILER!

GOSH, I HOPE HE ISN'T! I'LL STOP BY HERE AND TELL HIM TO GET OUT IN DENVER! WHO'D TAKE HIM OFF OUR HANDS?

YEP, HE'S BACK THERE—SOUND ASLEEP! I KNOW OF A MAN OUT IN DENVER WHO'D TAKE HIM OFF OUR HANDS!

WELL, HERE WE ARE, IN OKLAHOMA CITY, BELLAS! LOOK AT THAT AHEAD OF US, WOULD YA!

THAT'S THE STATE CAPITAL BUILDING—IF IT WASN'T FOR THOSE OIL WELLS, WE COULD GET A BETTER VIEW OF IT!

# She Calls Shots For Vancouver Hubby At Bisley

A member of the Canadian team of sharpshooters entered in the year's first rifle meet at Bisley, Nev. Colville, of Vancouver, is shown on the range during a practice session. With him is Mrs. Colville, who is keeping tabs on the destination of his bullets, or "spotting."

# Heavy Downpour Halts As Rifleman Invading Bisley

BISLEY CAMP, England, July 7.—The rain stopped at Bisley today, bringing great relief to the thousands of English military sportsmen watching the match for the major match of the National Rifle Association's meeting.

The weather was fair and for the first time since the coronation Buisley opened Monday, the camp was dry.

Bisley was invaded by teams from the British public schools of England, coming for the Ashburton trophy, which will be fired tomorrow at the 200 and 500 yards range.

There was little of importance on today's card for intensive competition does not open until Friday. A "four from ten" match between the Marlborough and the Marlborough won the Cheyenne rapid firing competition at 200 yards, taking the challenge trophy and cash award of \$50.

Another match for the territorial the Volvengia challenge cup, also rapid fire, was taken by the Marlborough and the team from the Grenadiers won the Lewis machine gun match.

# Duke Of Windsor's Ranch Wins Prizes

CALGARY, July 7. — Myrtle Prince, owned by Duncan Campbell, of Moffat, Ont., was awarded grand and senior championships for Shorthorn bulls at the Calgary exhibition here today.

Princeton Republic, from the H. Ranch at Pakenia, Alta., owned by the Duke of Windsor, took the reserve grand and reserve senior ribbons.

France's greatest mine disaster occurred in 1906, when 1099 men were killed in a mine explosion at Courrières.

# U.S. CONTRACTS FOR 200 PLANES

WASHINGTON, July 7.—The War department today awarded a \$411,380 contract to the Curtis Wright Corporation of Buffalo, N.Y., for 200 pursuit airplanes.

The machines are designed as low wing, all metal, cabin monoplane powered by single radial aircooled engines developing 1300 horsepower and capable of driving the ships at a speed exceeding 1300 miles an hour, the war department said.

**DUKES AGREE WALLACE GOT BUM DECISION**

TORONTO, July 7. — Ontario's Athletic Commission agreed at a meeting Tuesday that Gordon Wallace was the victim of a bad decision in his Canadian welterweight title bout with Frankie Genevieve of Toronto here Monday night.

But the commission decided it would not reverse the decision given to champion Genevieve by two of the three judges. The third voted for Wallace, but the crown to Genevieve some weeks ago.

The commission decided to do everything in its power to make amends to Wallace for the failure to give him a bout they agreed he had won.

They agreed that if a lost promoter would stage the bout and the boxer agreed, the commission would stage another Wallace-Genevieve match for the title and will bring in an outstanding title bout from another city whose decision will be final.

Jack Allen, manager of Wallace, agreed immediately to the return bout and back Genevieve, Toronto promoter, said he would stage it July 19 if the boxer is agreeable.

The only hitch in arrangements for the return fight is the attitude of Julius Goldberg, manager of Genevieve. He said Genevieve had promised that if he retained his title against Wallace he would fight next with Tommy Bland, Toronto welterweight.

He said Genevieve had promised that if he retained his title against Wallace he would fight next with Tommy Bland, Toronto welterweight.

# BANTAM CHAMP WHIPS CALLURA

HAMILTON, Ont., July 7. — In a gallant comeback from the verge of defeat, Baby Yack, Canadian bantamweight champion, last night turned back the threat of Angelo Callura, Hamilton, to win the main bout of a Queensbury A.C. card here.

In a preliminary bout, Billy Evans, Regina, won a close decision over Dave Yack, brother of the bantam champion, Yack, fighting his first bout as a professional, outwitted Callura, who by six rounds weighed 142 for the four-rounder and Yack 148.

The crowd boomed the unpopular decision which gave Jimmy Young, Detroit bantamweight, a win over Billy McElroy, Vancouver, after a five round fight in which the younger boy seemed to have the edge.

The Detroit crowd covered up well and was hard for McElroy to sit, so he, while Young drew blood from McElroy in the fourth, he missed his punches too often to gain any advantage over the Vancouverer. Both weighed 118 pounds.

Yack gave a terrific lesson to a young Montreal player, J. Richard, who was defeated.

W. Pedlar of Vancouver advanced in the junior men's singles with a 4-1 victory over J. Mutt, Ont.

D. Roberts, Calgary, paired with Mrs. F. Fisher, Toronto, to defeat Mac Macdonald and M. Craig, Ottawa, 6-0, 6-2 in 15 minutes.

M. Roberts also won a match in mixed doubles, partnered by George Robinson, against a team from Niagara Falls. They defeated Miss F. Patale and A. J. Bell, Ottawa, 6-0, 6-2.

Bill Starks of Calgary, Alberta, defeated a team from Hamilton, 6-0, 6-2 in 15 minutes.

Starks teamed with the Hamilton team, 6-0, 6-2 in 15 minutes.

Starks teamed with the Hamilton team, 6-0, 6-2 in 15 minutes.
